Please describe the areas of support and experience you currently offer to meet needs of children and young people with SEND

At Woodcote Primary School we are proud to provide a safe, stimulating and inclusive learning environment where every member of our community is valued, respected and made to feel welcome within our mainstream setting. It is our ethos that all children have an equal right to a full and rounded education and to enjoy high quality learning experiences through which they are able to achieve their full potential.

We therefore use our best endeavours to secure special educational provision for pupils for whom this is required, that is 'additional to and different from' that provided within the differentiated curriculum to respond to the four areas of need identified in the new Code of Practice (September 2014).

Communication and interaction

Cognition and learning

Social, mental and emotional health

Sensor/ physical

The four categories that the school caters for can be classed into core, additional and high needs, where some children only require minimal interventions while others need additional support to raise the level of their learning. A few children, generally those who have existing Statements of Special Educational Needs or Education Health and Care Plans require high needs.

What policies do you have for the identification and assessment of pupils with special educational needs and disabilities?

Definition of special educational needs `

A child or young person has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for them. A child of compulsory school age or a young person has a learning difficulty or disability if they:

- a) have a significantly greater difficulty in learning than the majority of others of the same age; or
- b) have a disability which prevents or hinders them from making use of educational facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post16 institutions.

A child under compulsory school age has special educational needs if they fall within the definition at (a) or (b) above or would do so if special educational provision was not made for them. Children must not be regarded as having a learning difficulty solely because the language or form of language of their home is different from the language in which they will be taught`.

At Woodcote, children are identified with Special Educational Needs in a number of different ways:

- They could originate from a referral from a GP, a health visitor, the speech and language service etc.
- Concerns have been raised by parents/carers, about the level of progress being made by their child
- Through paediatric assessments with the Paediatrician or concerns from the school nurse

Class teachers and support staff will also have identified that a pupil is failing to make the expected progress in their learning by raising concerns about the following issues, following our SEN Early Identification Policy:

- Displays difficulty in developing Reading, Writing or Mathematics skills which results in a child working significantly below age related expectations

Despite differentiated teaching approaches targeted particularly in a child's identified area of weakness, and targeted interventions, the child is still making little or no progress

- Presents persistent emotional or behavioural difficulties which are not improved by the behaviour management techniques usually employed in the school

- Has sensory or physical needs, and continues to make little or no progress, despite the provision of specialist equipment

- Has communication and / or interaction difficulties, and continues to struggle to make progress both academically and socially

We need information about the policies you have in place for making provision for pupils with special educational needs and disabilities. We need this information for pupils regardless of whether they have Education Health and Care (EHC) Plans or not.

How will you evaluate the effectiveness of your provisions for these pupils?

In order to make consistent continuous progress in relation to SEN provision the school encourages feedback from staff, parents and pupils throughout the academic year. This is done in the form of an annual parent and pupil questionnaire, discussion and through progress meetings with parents.

Pupil progress will be monitored on a termly basis in line with the SEN Code of Practice.

SEN provision and interventions are recorded on Individual Education Plans and Provision Maps, which are updated

when the intervention is changed. These are updated by the class teacher and are monitored by the SENCO. These reflect information passed on by the SENCO at the beginning of an academic year and are adapted following assessments. These interventions are monitored and evaluated by the SENCO and Headteacher and information is fed back to the staff and governors. This helps to identify whether provision is effective.

The SENCO monitors the movement of children within the SEND system in school and provides staff and governors with regular summaries of the impact of the policy on the practice of the school.

What arrangements do you have for assessing and reviewing the progress of these pupils?

Where it is determined that a pupil does have SEN, parents will be formally advised of this before inclusion of the individual on the School SEN/Inclusion Record. The aim of formally identifying a pupil with SEN is to help school ensure that effective provision is put in place and so remove barriers to learning. The support provided consists of a four part process: Assess; Plan; Do; Review. This is an ongoing cycle to enable the provision to be refined and revised as the understanding of an individual grows. This cycle enables the identification of those interventions which are the most effective in supporting the pupil to achieve good progress and outcomes.

Assess

In identifying a child as needing SEN support the class teacher, working with the SENCO should carry out a clear analysis of the pupil's needs. This should draw on subject assessments, teacher observations, details of previous progress and attainment, comparisons with peers and national data, as well as the views and experience of parents.

The opinion and feelings of the individual and advice from external support services will also be considered. Any parental concerns will be recorded and compared with the school's information and assessment data on how the pupil is progressing. This analysis will require regular review to ensure that support and intervention is matched to need; barriers to learning are clearly identified and being challenged and that the interventions being used are developing and evolving as required. Where external support staff are already involved their work will help inform the assessment of need. Where they are not involved they may be contacted, if this is felt to be appropriate, following discussion and agreement from parents.

Plan

Planning will involve consultation between the teacher, SENCO and parents to agree the adjustments, interventions and support that are required; the impact on progress, development and or behaviour that is expected and a clear date for review.

All those working with the pupil, including support staff, will be informed of their individual needs, the support that is being provided, any particular teaching strategies/approaches that are being employed and the outcomes that are being sought.

Do – The class teacher remains responsible for working with the child on a day today basis. They will retain responsibility even where the interventions may involve group or 1:1 teaching away from the mainstream classes. Teachers work closely with all staff and relevant specialist staff to plan and assess the impact of support and interventions and links with classroom teaching.

Support with further assessment of the pupil's strengths and weaknesses, problem solving and advising of the implementation of effective support will be provided by the SENCO.

Review – Your child's progress is continually monitored by his/her class teacher. His/her progress is reviewed formally every term and a National Curriculum level given in reading, writing, numeracy and science. Children in Year 1 are required to complete the National Phonics Screen that will assess their ability to read real and pseudo words.

If your child is in Year 1 and above, but is not yet at National Curriculum levels, a more sensitive assessment tool is used which shows their level in more detail and will also show smaller but significant steps of progress. The levels are called 'P levels'.

At the end of each key stage (i.e. at the end of year 2 and year 6) all children are required to be formally assessed using Standard Assessment Tests (SATs). This is something the government requires all schools to do and the results that are published nationally.

Reviews of on going pupil progress in general will be made during termly 'Pupil Progress Meetings' between the Head teacher and Class Teacher, data checks using internal tracking grids and pupil progress reports (which summarise achievement against learning targets in Reading, Writing and Maths set in class by the teacher). Children at the SEN Support stage will have additional 'small step' learning targets which set out specific outcomes to be achieved by the end of the academic year. These desired outcomes/goals are recorded in your child's Individual Education Plan (IEP). The IEP for the new academic year is shared with you at our Autumn Term Parents' Evening, revisited in the Spring Term Parents' Evening, with an additional third invitation to review progress in the Summer Term. The class teacher, in conjunction with the SENCO will revise the IEP in light of pupil progress and development; new intervention programmes or levels of support will be organised as necessary, and targets updated if appropriate.

The review process will also help the school to evaluate the impact and quality of the support and interventions. In addition to the above, the progress of children with a current Statement of SEN, or for those with Education, Health and Care Plans is formally reviewed at an Annual Review with all adults involved with the child's education. Pupils are encouraged to give their views prior to the meeting and these are shared during the review. Detailed 'Review' reports are written and circulated to Leicestershire SEN, teachers and support staff and parents/carers.

New targets for the next 12 months are identified and put into practice.

What is your approach to teaching these pupils?

'Every Teacher is a Teacher of SEN'. Provision for children with special educational needs is a matter for the whole school. The governing body, the school's Head teacher, the SENCO and all other members of staff, particularly class teachers and teaching assistants, have important day-to-day responsibilities. A graduated approach is adopted at Woodcote:

1) Quality First Teaching: 'The baseline of learning for all pupils'. (Class teacher input via excellent targeted classroom teaching). All children in school should be getting this as a part of excellent classroom practice when needed.

For your child this would mean:

- That the teacher has the highest possible expectations for your child and all pupils in their class.
- That all teaching is based on building on what your child already knows, can do and can understand.
- Different ways of teaching are in place so that your child is fully involved in learning in class. This may involve things like using more practical learning.
- Specific strategies are in place to support your child to learn.
- Your child's teacher will have carefully checked on your child's progress and will have decided that your child has gap in their understanding/learning and needs some extra support to help them make the best possible progress

2) SEN Support Any

pupil who is falling significantly outside of the range of expected academic achievement in line with predicted performance indicators and grade boundaries will be monitored. Any pupil identified as having a special educational need and/or disability will be added to the school's SEND record. Extra support will be given to these pupils to help them to make progress as a result of being acknowledged by the class teacher as having specific gaps in their understanding of a subject/area of learning.

For your child this would mean:

- He / She will engage in group sessions with specific targets to help him/her to make more progress.
 - A Teacher, or most often a Learning Support Assistant/teacher or outside professional (like a Speech and Language Therapist) will run these small group sessions using the teacher's plan.
 - You will be asked to a meeting to discuss your child's progress and help plan possible ways forward.
- However, we recognise that each child's needs are unique and so each child will receive different support, depending upon their specific needs. The Special Educational Needs Coordinator (SENCO) and class teacher will decide which strategies and resources are appropriate to support your child's needs. Where outside agencies are involved, they will provide advice about how best to support your child's needs.

3) SEN Support for children with specific barriers to learning that cannot be overcome through Quality First Teaching and intervention groups. The school will draw on the support of outside agencies e.g. Speech and Language therapy to run small groups or 1:1 sessions.

For your child this would mean:

- Your child will have been identified by the class teacher/SENCO (or you will have raised your worries) as needing more specialist input instead of or in addition to quality first teaching and intervention groups.
- You will be asked to come to a meeting to discuss your child's progress and help plan possible ways forward.
- You may be asked to give your permission for the school to refer your child to a specialist professional e.g. a Speech and Language Therapist or Educational Psychologist. This will help the school and yourself understand your child's particular needs better and be able to support them better in school.
- The specialist professional will work with your child to understand their needs and make recommendations, which may include:

Making changes to the way your child is supported in class e.g. some individual support or changing some aspects of teaching to support them better ;

Support to set better targets which will include their specific expertise;

A group run by school staff under the guidance of the outside professional e.g. a social skills group

4) Specified Individual support for your child in school provided via a Statement of Special Educational Needs now replaced by an Education, Health and Care Plan (EHCP). This type of support is available for children with significant special needs whose learning requirements are severe, complex and lifelong and who need more than 20 hours of support in school. Usually your child will also need specialist support in school from a professional outside the school.

For your child this would mean:

- The school (or you) can request that the Local Authority carry out a statutory assessment of your child's needs. This is a legal process which sets out the amount of support that will be provided for your child.
- After the school have sent in the request to the Local Authority (with a lot of information about your child, including some from you), they will decide whether they think your child's needs (as described in the paperwork provided), are severe and complex enough to warrant 20 hours of support in school to make good progress. If this is the case they will write an EHC Plan. If they do not think your child needs this, they will ask the school to continue with 'SEN Support'
- The EHC Plan will outline the number of hours of individual/small group support your child will receive from the LA

and how the support should be used and what strategies must be put in place. It will also have long and short term goals for your child.

- The additional adult may be used to support your child with whole class learning, or to run individual programmes

How will you adapt the curriculum and learning environment for these pupils?

At Woodcote Primary School, we aim to offer excellence and choice to all our children, whatever their ability or needs. We have high expectations of all our children. We aim to achieve this through the removal of barriers to learning and participation. We want all our children to feel that they are a valued part of our school community.

Through appropriate curricular provision, we respect the fact that children:

- Have different educational and behavioural needs and aspirations;
- Require different strategies for learning;
- Acquire, assimilate and communicate information at different rates;
- Need a range of different teaching approaches and experiences.

Class Teachers plan lessons according to the specific needs of all groups of children in their class, and will ensure that your child's needs are met. When it is decided to provide a pupil with SEN support, planning will involve consultation between the teacher, SENCO and parents to agree the adjustments, interventions and support that are required; the impact on progress, development and or behaviour that is expected and a clear date for review. Parental involvement may be sought, where appropriate, to reinforce or contribute to progress at home.

All those working with the pupil, including support staff, will be informed of their individual needs, the support that is being provided, any particular teaching strategies/approaches that are being employed and the outcomes that are being sought. Specially trained support staff can adapt the teachers planning to support the needs of your child where necessary.

The nature of intervention, and the strategies employed may include the following:

Strategies to support/develop Literacy

- Quality literacy teaching and support from the class teacher and TAs.
- Differentiated curriculum for children with SEND when necessary.
- Individual and group support in the classroom from TAs and the Class Teacher.
- Use of a range of literacy resources to reinforce concepts and understanding, including the use of laptops and/or iPads.
- Individual support for pupils with existing Statements of Special Educational Needs and the new Health, Education and Care Plans.
- Targeted support for individuals, pairs and small groups with SEND.
- Additional phonics support, focusing on spelling and sentence construction with small groups of SEND pupils.
- Additional reading support with a variety of children, including SEND pupils.
- Termly assessments of all pupils, to monitor progress being made and identify areas of need.
- Specific 'Wave 3' interventions such as Moving Reading and Writing on, FFT Wave 3 Literacy, Read, Write, Inc.
- Extra adult time to devise/administer the nature of the planned intervention and also to monitor its effectiveness
- Staff development and training to introduce more effective strategies
- Provision of resources to enhance independent learning, for instance: sand timers, easy grip scissors, colourful semantics folders and table top writing packs containing finger spacers, phonics sound mats and high frequency word lists.
- Targeted literacy support strategies devised by the educational psychologist and implemented by the class teacher, SENCO or TA as appropriate.
- Handwriting implemented throughout the school and additional sessions as and where required.
- Specialised behaviour support team to work in small group sessions to build confidence and address areas of need.

Strategies to support/develop Numeracy

- Quality numeracy teaching and support from the class teachers and teaching assistants (TAs)
- Withdrawal of small groups, pairs or individual SEND pupils, by Learning Support Assistants for targeted support.
- Individual support for those children with EHC Plans or existing Statements of Special Educational Needs.
- Small group, paired and individual support in the classroom from the class teacher and TAs.
- Use of a wide range of mathematical equipment and resources to reinforce understanding across all year groups, including laptops and/or iPads.
- Differentiated activities for SEND pupils when necessary.
- Termly assessments for all children to monitor progress being made and to identify areas of need.
- Use of practical support resources adapted for the specific needs of the child.
- Specialised behaviour support team to work in small group sessions to build confidence and address areas of need.

Strategies to support Foundation Subjects

- TAs timetabled to work alongside individual identified children during the afternoons (key workers)
- Differentiated activities according to SEND and needs.
- Different learning materials, resources or specialist equipment to support your child individually and in groups
- Using iPad Apps for children as well as other ICT equipment and programs to support specific needs.
- Group or individual support, which may involve small groups of children being withdrawn to work with TA support
- Use of Visual timetables.
- Provision of individually tailored visual support packages for specific children including individual timetables and behavioural cue cards.
- Specialised behaviour support team to work in small group sessions to build confidence and address areas of need

The school building regulations comply with all relevant accessibility requirements. The majority of school site (including the field) is wheelchair accessible. The mobile classrooms are not currently wheelchair accessible however there is a parallel year group working within the main school and therefore access to the mobile classroom would not be necessary. There is a disabled toilet and a shower situated in the main school. We have an allocated 'Nurture Room' for pupils to access. We have an accessibility plan, which is available to view online.

How will you provide additional support to aid the learning of these pupils?

The class teacher remains responsible for working with the child on a day today basis. They will retain responsibility even where the interventions may involve group or 1:1 teaching, led by Learning Support Assistants, away from the mainstream classes.

Teachers work closely with all staff and relevant specialist staff to plan and assess the impact of support and interventions and links with classroom teaching.

Support with further assessment of the pupil's strengths and weaknesses, problem solving and advising of the implementation of effective support will be provided by the SENCO.

What activities are available for these pupils, in addition to those available in accordance with the curriculum?

We make sure that activities outside the classroom, such as school trips and residential visits are accessible to all children including those with SEND. Risk assessments are carried out for each trip and a suitable number of adults are made available to accompany the pupils, with 1:1 support if necessary.

Parents/carers are invited to accompany their child on a school trip if this ensures access.

After school clubs are available to all pupils.

Vulnerable pupils are given priority and adjustments will be made to support participation. We ensure that equipment used for these activities is accessible to all children regardless of their needs.

Health and safety audits will be conducted as and when appropriate.

We have regular Inspiration Days and visits from coaches, authors etc. to support different topic areas. We celebrate our achievements and talents, irrespective of individual differences within the protected categories of the Equality Act of 2010 through special assemblies and award ceremonies. Our broad, balanced, creative curriculum and enrichment activities therefore provide opportunities for everyone to achieve and succeed by encouraging all pupils to be actively involved in their own learning and reducing barriers to learning and participation. Together we take pride in making a positive contribution to our school and the wider community.

What support is available for improving the emotional and social development of these pupils?

Supporting children in their emotional and social wellbeing is an integral part of our curriculum for all children at Woodcote Primary School.

We have a caring, understanding team who look after all of our children. Social Skills programmes/support including strategies to enhance self esteem that we can provide in school may include:

- Nurture groups
- Social skills and friendship groups e.g. Circle of Friends
- Personalised behaviour programmes including rewards and sanctions to suit a child's particular needs
- Themed assemblies and lessons using the SEAL (Social and Emotional Aspects of Learning) framework support the children's personal development
- Outside agencies support within all areas including social, mental and emotional health
- We offer a wide variety of after school and before school clubs which change termly. There are opportunities with the additional funding of Pupil Premium to ensure children can access after school clubs and trips
- Behaviour support focusing on social and emotional development, delivered 1:1, 2:1, paired or in a group as appropriate, either in or out of class
- Baby watching programme to develop children's empathy and reduce anxiety. This is carried out with whole year groups and specific identified groups of children.
- Tailored intervention programmes delivered by the school's allocated educational psychologist to children and their parents/carers, as appropriate
- Intervention from the Child and Adolescent Mental Health Service (CAMHS) for children and their parents/carers on referral, delivered at CAMHS or in school as appropriate
- Buddy systems and play coaches used for support during playtimes and lunchtimes.
- Collaboration and communication with all external professionals involved with children, as appropriate, eg. hospital consultants, GPs and CAMHS practitioners.
- All staff trained in child protection at regular intervals.
- Open door policy by all staff for all parents & carers throughout the day.

Access to Medical Interventions:

If your child has a long or short term medical illness then please refer to the Medical Needs and Intimate Care policies which outline the level of care and support provided at our school in detail. In summary however, strategies

may include:

- Regular update sessions between SENCo and school nurse.
- Initial meetings with school nurse and parents of children with medical issues to establish child's needs in school and, where appropriate, draw up care plans.
- Staff training in the administration of support and/or medication for conditions including epilepsy, diabetes and anaphylaxis shock.
- Liaison with medical professionals, eg. GPs, hospital consultants and mental health practitioners, providing on going treatment to children in the school.
- Medical needs book with photographs of child and detailing the child's condition and, where relevant, required medication displayed in staffroom, classrooms and the school kitchen.
- Information about specific children in the class registers so that any supply teachers are aware of needs.
- Individual protocols for children with significant medical needs.
- Implementation of risk assessments.
- Staff trained in First Aid, most recently in January 2014.

Special Educational Needs or Disabilities (SEND) contact details

Title:	SEN co-ordinator
Name:	Hannah Oselton
Telephone:	01530417007
E-Mail Address:	hoselton@woodcote.leics.sch.uk

Please answer the questions below about the support you offer to children and young people with special educational needs or disabilities.

Please describe how you would support a parent/carer with a concern or a young person who was worried about their learning

We always aim to work closely with our parents to ensure that both the pupil and parents are happy with the education and opportunities that we are providing for them together at our school.

In the first instance, we would ask parents to raise their concerns to their child's class teacher. This will ensure that our parents are fully informed with the progress of their child and provides the opportunity for their worries to be listened to, and possibly future steps can be put into place to try and address these worries. Should the school have any worries about the progress of their child, they would have already discussed it with the parents, and next steps will be in place.

Should parents remain concerned after speaking to their child's class teacher and possible routes forward have been tried and reviewed, parents are encouraged to come and speak to us again, either the Headteacher or SENCo.

However, we hope that by following our policies regarding SEND, we will always be able to work cooperatively and successfully with all of our parents in supporting their children, so that they feel fully supported and listened to.

What expertise and training do staff have in relation to these pupils and how is this specialist expertise secured?

We aim to keep all school staff up to date with relevant training and developments in teaching practice in relation to the needs of pupils with SEND. The SENCO attends relevant SEND courses, Family of Schools SEND meetings and facilitates/signposts relevant SEND focused external training opportunities for all staff. One aspect of the SENCO's job is to support the class teacher in planning for children with SEND.

We recognise the need to train all our staff on SEND issues and we have funding available to support this professional development. The school has a training plan for all staff to improve the teaching and learning of children including those with SEND. This includes whole school training on SEND issues such as Autism and Speech and Language difficulties.

Individual teachers and support staff attend training courses run by outside agencies that are relevant to the needs of specific children in their class e.g. from the Outreach service. Shadowing/peer observation takes place, as does medical training to support pupils with medical care plans such as epilepsy and anaphylaxis shock training. The SENCO, with the Headteacher, ensures that training opportunities are matched to school development priorities and those identified through the use of provision management.

The school builds strong working relationships and links with external support services in order to fully support our SEND pupils and aid school inclusion and believes that sharing knowledge and information with outside agencies is crucial in securing effective and successful SEND provision within our school. We will therefore invite and seek specialist advice, support and training from external SEND services where necessary in the identification and assessment of, and provision for, SEND. For example, outside agencies may become involved if the child:

- Continues to make little or no progress in specific areas over a long period
- Continues working at National Curriculum levels substantially below that expected of children of a similar age.
- Continues to have difficulty in developing Literacy and Mathematical skills
- Has emotional or behavioural difficulties which regularly and substantially interfere with the child's own learning or that of the class group
- Has sensory or physical needs and requires additional specialist equipment or regular advice or visits by a

specialist service

- Has on going communication or interaction difficulties that impede the development of social relationships and cause substantial barriers to learning
- Despite having received intervention, the child continues to fall behind the level of his/her peers

The SENCO is the designated person responsible for liaising with the following:

- Leicestershire Education Psychology Service
 - Behaviour Support Service
 - Social Care
 - Speech and Language Service (Class teacher also liaises)
 - Specialist Outreach Services e.g. Autism Outreach
 - Occupational Therapy
 - Physiotherapy
 - Education Service for Deaf & Partially Hearing Children
 - Child & Adolescent Mental Health Service
 - Education Service for Blind & Partially Sighted Pupils
- * School nurse

How will equipment and facilities, to support these pupils, be secured?

All pupils with SEND will have access to Element 1 (£4000 per pupil as a basic entitlement within school delegated budget) and Element 2 of a school's budget (Additional funding through the school's delegated national SEND budget £6000 of additional support per pupil).

For those with the most complex needs, additional funding 'Top Up' Funding may be required above the £6000 of Element 2 to meet the needs of the assessed pupil – this is centrally retained by the Local Authority.

The SENCO is responsible for the operational management of the specified and agreed resourcing for special needs provision within the school, including the provision for children with statements of special educational needs and Education Health and Care plans.

The Headteacher informs the governing body as to how the funding allocated to support Special Educational Needs has been employed. The Headteacher and the SENCO meet termly to agree on how to use funds directly related to statements.

What are the arrangements for consulting parents / carers of these pupils about, and involving them in the education of their child?

Partnership plays a key role in enabling children and young people with SEND to achieve their potential.

Woodcote Primary School believes that a close working relationship with parents is vital in order to ensure:

- Early and accurate identification and assessment of SEND leading to appropriate intervention and provision
- Continuing social and academic progress of children with SEND
- Personal and academic targets are set and met effectively

The class teacher is regularly available to discuss your child's progress or any concerns you may have and to share information about what is working well at home and school so similar strategies can be used. The SENCO is also available to meet with you to discuss your child's progress or any concerns/worries you may have.

All information from outside professionals will be communicated to you directly, or where this is not possible, in a report. Individual Education Plans will be reviewed with your involvement each term. A home/school contact book may be used to support communication with you, when this has been agreed to be useful for you and your child. The SENCO may also signpost parents of pupils with SEN to the Local Authority where specific advice, guidance and support may be required.

If an assessment or referral indicates that a pupil has additional learning needs the parents and the pupil will always be consulted with regards to future provision. Parents are invited to attend meetings with external agencies regarding their child, and are kept up to date and consulted on any points of action drawn up in regards to the provision for their child.

The school's SEND Governor (Mr Paul McEniff) may be contacted at any time in relation to SEN matters. He can be contacted via the school email office21@woodcote.leics.sch.uk or by leaving a message for him to contact you. As well as the school's 'Local Offer', the school's website contains our policy for special educational needs, the school's Accessibility Plan and Disability Equality Policy.

What are the arrangements for consulting young people with special educational needs about, and involving them in their education?

Pupil Voice

Your child will be able to contribute at all SEND reviews should the child be old enough and/or be able to contribute.

They can have their views and needs expressed at the reviews, discussions with the class teacher or their views can be sought through pupil interviews, informal discussions, through Social Stories, etc.

What arrangements are made by the governing body or the proprietor, relating to the treatment of complaints, from parents and carers of these pupils, concerning the provision made at your school / college?

If a parent is concerned about anything to do with the education that we are providing at our school, they should, in the first instance, discuss the matter with their child's class teacher.

Most matters of concern can be dealt with in this way. All teachers work very hard to ensure that each child is happy at school, and is making good progress; they always want to know if there is a problem, so that they can take action before the problem seriously affects the child's progress.

Where a parent feels that a situation has not been resolved through contact with the class teacher, or that their concern is of a sufficiently serious nature, they should make an appointment to discuss it with the Headteacher.

The Headteacher considers any such complaint very seriously and investigates each case thoroughly. Most complaints are normally resolved at this stage.

If the school cannot resolve any complaint itself, those concerned should contact the Chair of Governors, Mr Stephen Parker. Should a parent have a complaint about the Headteacher, s/he should first make an informal approach to the Chair or Vice Chair of Governors. A copy of the school's complaint policy is available on request/on the website.

How the governing body involves other bodies (including health and social services bodies, local authority support services and voluntary organisations) in meeting the needs of these pupils and supporting their families?

The school budget, received from Leicestershire LA, includes money for supporting children with SEND.

The Head Teacher decides on the budget for Special Educational Needs and Disabilities in consultation with the school governors, on the basis of needs in the school.

The Governing Body, Head Teacher and SENCO discuss all the information they have about SEND in the school, including:

the children getting extra support already;

the children needing extra support;

the children who have been identified as not making as much progress as would be expected and decide what resources/training and support is needed.

All resources/training and support needs are reviewed regularly and changes made as required.

The Governing Body ensures that the school works with and in support of outside agencies when pupils' needs cannot be met by the school alone.

At Woodcote, some of these services currently include Education Psychology Service, Speech and Language Therapy, Outreach Forest

Way Teaching School Alliance and Hearing Support Service.

The Governing Body challenges the school and its members to secure necessary provision for any pupil identified as having special educational needs.

Contact details for the support services for parents and carers of these pupils, including those for arrangements made in accordance with Section 32 (Children and Families Act 2014)

How do you support these pupils transfer between phases of education or in preparing for adulthood and independent living?

We recognise that transitions can be difficult for a child with SEND and take steps to ensure that any transfer to a different educational setting is as smooth as possible.

If your child is moving to another school:

We will contact the school SENCO and ensure he/she knows about any special arrangements or support that need to be made for your child. We will make sure that all records about your child are passed on as soon as possible.

When moving classes in school:

Information will be passed on to the new class teacher in advance and in all cases, a planning meeting will take place with the new teacher. All Individual Education Plans will be shared with the new teacher. Transition to a new class is facilitated by sessions during the summer term with new class teachers and environment. If your child would be helped by a book to support them understand moving on then it will be made with them during the second half of the summer term.

In Year 6:

Your child will do focused learning about aspects of transition to support their understanding of the changes ahead. A member of staff from the secondary school setting comes to visit and meet with the children who will be attending their school. Where possible your child will visit their new school on several occasions and in some cases staff from the new school will visit your child in this school. Many hold open evenings for parents to attend in order to support your decision making process about which school is the right choice for your child.

If your child has already been identified as having special educational needs, then the SENCO at our school meets with the secondary school SENCO during the final term of Year 6. Details of the pupil's needs are passed on to the new SENCO, along with details of what support has been in place at our school to help them. Our SENCO passes on information about any outside agencies that have been involved and all SEND paperwork is passed on, including documents such as IEPs and outside agency reports.

The receiving secondary school will then have all the relevant information needed to put support in place as soon as your child joins them in Year 7. The secondary school may hold additional induction sessions for children with specific needs. If it is felt that your child would benefit from these sessions, they will be invited to attend; occasionally additional sessions take place during the summer holidays as a 'Summer School'.

Reception Class:

Induction events take place during the summer term for all children who are joining the Foundation Stage in September. The Reception class teacher does some preschool visits in the summer term before the children enter our school in Reception class. She speaks with your child and their key workers to gain as much information about your child as possible. If your child has already been identified as having special educational needs then the SENCO will have been invited to attend a meeting at the preschool setting.

Your child will also have visits to our school in the summer term where they will get to meet the teachers, other children that will be starting the school with them and the new school environment.

Flexible entry to Early Years Foundation Stage class in Reception full time and full days can be difficult and tiring for children initially, so the school adopts the policy of a staggered entry.

How do you contribute to the publication of the local authority's local offer?
